FOR PARENTS OF CLOSE CONTACTS OF STUDENT WITH COVID 19 AT URMSTON GRAMMAR

Advice for student to self-isolate for 14 Days

Dear Parent/Carer,

We have been advised that there has been a confirmed case of COVID-19 within Year 11. We have followed the national guidance and have identified that your child has been in close contact with the affected child at the end of last week. In line with the national guidance, your son/daughter must now stay at home and self-isolate until Friday 30th October. As tomorrow is the last day of school before the half term break it means loss of teaching time is relatively minimal. Your son/daughter should return to school on Monday 2nd November provided they do not have symptoms of COVID-19.

We are asking your child to do this to reduce the further spread of COVID-19 to others in the community.

If your child is well at the end of the 14 day period of self-isolation, then they can return to school and their usual activities.

Other members of your household can continue normal activities provided your child does not develop symptoms within the 14 day self-isolation period.

Please see the link to: Guidance for contacts of people with confirmed coronavirus (COVID-19) infection who do not live with the person. <https://www.gov.uk/government/publications/guidance-for-contacts-of-people-with-possible-or-confirmed-coronavirus-covid-19-infection-who-do-not-live-with-the-person>

What to do if your child develops symptoms of COVID-19

If your child develops symptoms of COVID-19, they should remain at home for at least 10 days from the date when their symptoms appeared. Anyone with symptoms will be eligible for testing and this can be arranged via <https://www.nhs.uk/ask-for-a-coronavirus-test> or by calling 119 .

All other household members who remain well must stay at home and not leave the house for 14 days. This includes anyone in your 'Support Bubble'. The 14-day period starts from the day when the first person in the house became ill. Household members should not go to work, school or public areas and exercise should be taken within the home. If you require help with buying groceries, other shopping or picking up medication, or walking a dog, you should ask friends or family. Alternatively, you can order your shopping online and medication by phone or online.

Household members staying at home for 14 days will greatly reduce the overall amount of infection the household could pass on to others in the community. If you are able and can, move any vulnerable individuals (such as the elderly and those with underlying health conditions) out of your home, to stay with friends or family for the duration of the home isolation period. Please see the link to the PHE 'Stay at Home' Guidance:

Symptoms of COVID-19

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- new continuous cough;
- high temperature;
- a loss of, or change in, normal sense of taste or smell (anosmia).

For most people, coronavirus (COVID-19) will be a mild illness.

If your child does develop symptoms, you can seek advice from the nhs.uk website at

<https://www.nhs.uk/conditions/coronavirus-covid-19/check-if-you-have-coronavirus-symptoms/>. If you are

concerned about your child's symptoms, or they are worsening you can seek advice from NHS 111 at

<https://111.nhs.uk/> or by phoning 111.

How to stop COVID-19 spreading

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID-19.

- Wash your hands with soap and water often – do this for at least 20 seconds.
- Use hand sanitiser gel if soap and water are not available.
- Wash your hands as soon as you get home.
- Cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze.
- Put used tissues in the bin immediately and wash your hands afterwards.

Further Information

Further information is available at <https://www.nhs.uk/conditions/coronavirus-covid-19/>

We will continue supporting your son/daughter with remote learning during their absence from school. They should check their school emails and 'Show My Homework' regularly for instructions from their subject teachers; please note that as staff are teaching in school as well as supporting remote learning there may be a delay in getting work to your child at the start of the timetabled lesson. As the students are preparing for mock examinations they should be using this time to revise.

All students are welcome to contact their teachers, form tutor or Pastoral Leader if they require additional support; but again may they may not get a response until the end of the school day. If you have any urgent questions, please contact the school office.

Yours faithfully,

Mrs R S Wall
