Dear Parents/Carers

As your son/daughter is involved within the GCSE PE course, we would like to offer some guidance as to how you could help your child with gathering evidence.

As part of the course, each student must gather evidence for the activities that they are assessed on. Within each activity, evidence needs to be recorded of the student in a competitive situation and in performing the core skills for that particular sport.

What does the evidence needs to include?

If your child plays fixtures outside of school, this would be the perfect opportunity to gather evidence. Recording as many fixtures as possible allows your child the best chance to have high quality evidence. However, there are guidelines that need to be followed in order for the evidence to be valid.

- When recording, the whole/or as much as the pitch needs to be seen on the video at all times. This allows the moderators to see what strategies the student is using on and off the ball.
- Your child needs to be seen in the video at all times. If possible, it may be better for your child to wear something that allows them to stand out more – e.g. bright coloured shorts or shoes, a number/bib.
- The video must be kept running from before the match begins until the formal break (e.g. half time). The video must begin again before the start of play. If your child is substituted off during the match, evidence must show clear indications of them leaving the pitch/court, then the video can be stopped. It must restart before they are substituted on.

A minimum of 3 recordings of the same activity needs to be handed in via a USB stick, to your child's teacher by Friday 10th December 2021. This can be 3 games, races or different performances.

If you have any concerns or questions regarding this, please contact a member of the PE department who will be happy to answer any questions.

Kind regards,

The PE Department
