Dear Parent/Carer

For students studying A Level Maths, the course requires the 'use of technology' to a level of functionality that a standard scientific calculator can't provide. The calculator for the A Level course we recommend is the Casio FX-991EX. This calculator is essential and provides a wide range of functionality necessary for A Level Maths.

Many students have been asking if they could purchase a more advanced 'graphical' scientific calculator (Casio CG50) via school. Although these calculators are not necessary to complete the course, they do offer a range of features that the Casio FX-991EX doesn't have. The calculators normally cost around £100 but we can offer them to students at a cost price of £71.00.

If you would like to purchase the Casio FX-CG50, please do so via Parent Pay.
The deadline for orders will be **Friday 8th October 2021**. Any orders made after this date may be experience a delay.

If your child has the Casio FX-CG50, they do not need to also purchase the Casio fx-991EX.

You can also purchase the Casio FX-991EX via Parent Pay, as usual.

There is no requirement for you to purchase this more expensive 'graphical' model; if your child already has the Casio FX-991EX then this will be sufficient.

Yours faithfully,

Mr D Penney
