

Transition Tasks : Geography

In the Summer, between completing your GCSEs and starting your Geography A Level at Urmston Grammar, please complete the following tasks :

1. Download a copy of the specification.

These are freely available on the OCR website – you need H481 for first assessment in 2018

2. Read the specification, annotate and become familiar with the assessment overview and content.
3. Year 12 will start with Topic 2.1 (Changing Spaces, Making Places) and 1.1.2 Option B (Glaciated Landscapes) so you should begin to do some reading and preparation for these topics.
4. All students will complete an independent investigation (Investigative Geography) so you might even start to consider what you would like to explore for this.

Written Task :

Changing Spaces, Making Places – complete the key words list.

Glaciated Landscapes – complete the key words list.
