Dear Parent/Guardian,

The UKMT Intermediate Maths Challenge is a multiple-choice question paper which is aimed at the very best mathematician in years 9 and 10. It encourages **mathematical reasoning**, **precision of thought**, and **fluency** in using basic mathematical techniques to solve interesting problems.

The UKMT Intermediate Maths Challenge is taking place on Monday 1st February 2021. The exam will take place in-school during the normal school day.

The paper consists of 25 multiple choice questions in which students have 60 minutes to complete. Gold, silver and bronze certificates are awarded to 40% of participants nationally.

Students can prepare for the challenge by completing UKMT questions on the Dr Frost website. Additionally, there are practice papers available on the UKMT website which can be found here:

<https://www.ukmt.org.uk/competitions/solo/intermediate-mathematical-challenge/archive>

All students in years 9 and 10 are invited to sign up to partake in the maths challenge and they should register their interest with their class teacher. If your child has a particular talent or enthusiasm for maths, then we would really encourage them to take part.

Kind regards,

Miss Murray
