Dear Parent

Geography Review magazine

As in previous years, the Geography Department is offering it's A Level students the opportunity to purchase a very useful magazine intended to supplement their studies. While purchase of this magazine is by no means compulsory, it is something that students will find both useful and interesting, and it does satisfy, in part, the need to read around and consider one's subject in greater depth than is possible in classroom teaching alone. This is a crucial element of academic study at A level, it is recommended that students study each subject for a minimum of 5 hours per week outside of lessons.

Purchase of the magazine, along with using it to stimulate extra note making from the articles and completing the exam practice sections would also help students to achieve a 1 on our attitude to learning grading system, whereby we recognise (and reward) pro-active learners.

The Geography Review magazine includes specially written articles, in the form of up to date case studies to help improve knowledge of the key topics at A Level and beyond, and an understanding of the geography of people and places around the world. In addition, regular features help develop geographical skills and examination techniques.

For just £17.50, your son / daughter will receive four full colour issues of the magazine over the academic year. If you wish your son / daughter to take up this offer make the relevant payment on ParentPay by Monday September 28th.

Yours sincerely

Mrs C Bramwell
