

Nuclear Design

By Luke Crampton

Luke, a reactor system design engineer, will deliver a lecture on all things nuclear design. Learn more about the nuclear lifecycle and industrial plants which are being designed in Manchester right now. Find out how engineers use their GCSE and A Level maths every day. This talk is best suited to people studying maths or physics and those interested in the topic of engineering and renewable energy, though everyone is welcome to attend.

- Tuesday 22nd October 5pm – 6pm
- Urmston Grammar Theatre
- Q & A after the lecture
- Everyone is welcome

Our community lecture series has been designed to provide a super-curricular opportunity for students, particularly those in the 6th form, to experience university level teaching with an expert in their field.
