Dear Parents/ Guardians,

As a result of the recent skills test, based on the transition work, your son/daughter has been identified as someone who we feel would benefit from extra support with the A-Level Mathematics course. We would like to offer them a programme of development and intervention, designed to support their learning and understanding before a re-sit which will take place on Thursday 23rd at 3:20-4:20 in M3.

We are asking selected students to attend 2 successive Thursday lunch time sessions starting the 16th of September and we would appreciate your support in encouraging your son/daughter to attend these sessions.

Below is a list of further resources we have compiled to support our students

- Teaching unit, pre and post assessments, revision and past papers. These can be found by going to https://urmstongrammar.sharepoint.com/sites/UGMathsStudentSharedDrive
- More past papers can be found on various websites (Maths Genie, Exam Solutions.net, Maths Physics tutor, Dr Frost Maths, Alevelmathsrevsion.com, Jethwa Maths)
- Exam style practice papers are also available in the 'Active Learn' online textbook.
- CGP – complete revision and exam practise A-Level maths bundle; Edexcel Year 1 and 2, this can be purchased from Parent Pay
- A-Level Maths Edexcel Practice Papers, this can be purchased from Parent Pay

We feel it is important that we offer students as much support as they need so we would appreciate your help in encouraging your son/daughter to engage with this package of support and intervention. The earlier in the school year this happens the better, we are hopeful that this proactive approach will go some way to aiding their progress and development.

Yours faithfully,
Miss Cookson
KS5 co-ordinator in Maths
