Dear Parents/ Guardians,

As a result of the recent skills tests your son/daughter has been identified as someone who we feel would benefit from extra support with the A-Level Mathematics course. We would like to offer them a programme of development and intervention, designed to support their learning and understanding of topics.

We have the privilege of having an additional fortnightly year 12 lesson, on week B Monday period 5, designed to support pupils to succeed in A-Level Mathematics. This lesson is compulsory and will become part of your son/daughter's timetable if they have either a free or are on independent study.

If your son/daughter is unable to attend this lesson it will then become compulsory for your son/daughter to attend our weekly 'Maths Clinics' from Tuesday 13th October. If they can attend both the additional lesson and the 'Maths Clinic' we would strongly recommend that is what they do.

We believe it is important that we are proactive in offering students as much support as they need so we would appreciate your help in encouraging your son/daughter to engage with this package of support and intervention. The earlier in the school year this happens the better.

Kind Regards,

Miss G Cookson

Head of Mathematics
