September 2023

Dear Parents and KS3 Geographers

I am writing to let you know about a resource that is now available via Parentpay.

This is a brand new Key Stage Three resource, published by CGP, created by a company we use lots at GCSE. It is a workbook, with 11 sections of questions (answers are provided) 6 of which are explicitly taught between Years 7 to 9 and 4 are GCSE modules.

We encourage our KS3 students to work beyond the 'necessary' and to get into the habit of being independent pro-active learners, we know this is part of our success story at GCSE. This book would be a great route to building those habits and stretching learning beyond the classroom.

Students would only need to purchase 1 copy for their Key Stage Three learning journey (ie – 1 per year is not required), so it really is fantastic value for money. The cost is £3.20, orders will be placed at a number of times over the academic year and books will normally be distributed via form tutors.

Students who purchase, and actively use these books, could show them to their class teachers as evidence of their pro-active approach to learning, and potentially earn House Points. Class teachers won't mark these, but students can self-mark (or work with a peer) and ask their teachers for clarification if any is needed.

Our Key Stage Three students have made a fantastic start to their Geography studies, I anticipate great things !

Ms C Bramwell

(Head of Geography)
