17 February 2020

Dear Parent / Guardian,

I am writing in connection with your child's recent interim report regarding their Attitude for Learning Grades. This grade relates to the amount of overall effort a pupil is putting into a particular subject in terms of both classwork and homework. It can also relate to their concentration levels in that lesson and their organisational abilities.

While your child has a number of excellent Grades in a number of subjects, there were also a number of Grade 3s. (Please see below for a guide to Attitude For Learning Grades)

- 1. Proactive and positive attitude to all aspects of learning.**
- 2. Positive attitude to learning.**
- 3. Disappointing attitude to learning at times. Immediate improvement needed.**
- 4. Negative attitude to learning. Major improvement required.**

GCSES are a very demanding two year course that require pupils to quickly adopt a very organised and mature approach to their studies in order that do fulfil their maximum potential in the exams next year. As a result your child will be meeting with me to discuss strategies to help raise your child's level of effort in those subjects. Please take the time to remind your child of the importance of making a good start to GCSES and also discuss how they can improve their approach to their studies.

Thank you for your support

Kind Regards,
Mr M. Bird
Head of Year 10.
